

**RIGHT OF USE OF OBA's
100% ONTARIO HONEY LOGO**

- The 100% Ontario Honey logo can only be placed on honey that contains 100% Ontario Honey (that is, 100% of the final volume of the product is started, produced, extracted and packaged in Ontario).
- The logo form, either colour or black and white, has to be the approved logo design, shown above.
- Colour combination remains as presented.
- The placement of the logo on honey containers can vary.
- The logo has been developed by the Ontario Beekeepers' Association for use by Ontario beekeepers; as such, the use of the 100% Ontario Honey logo on any product other than pure 100% Ontario Honey is controlled by the Ontario Beekeepers' Association (ie. the design, production, sale or licencing of promotional items that promote 100% Ontario Honey).
- The OBA reserves the right to demand any person or company to cease use of the 100% Ontario Honey logo if it is determined that it is being used incorrectly.
