

ADVANCED INTEGRATED PEST MANAGEMENT FOR BEEKEEPING IN ONTARIO

**ONTARIO BEEKEEPERS' ASSOCIATION
TECHNOLOGY TRANSFER PROGRAM**

CONTENTS

Chapter 1: Integrated Pest Management Principles

Components of IPM	1
Cultural and Physical IPM Management Techniques	3
Advanced IPM.....	4
The Big Picture	5

Chapter 2: Advanced Biology of the Varroa Mite

Varroa Biology	7
Seasonal Population Dynamics	8
Varroa Levels Exceeding Treatment Thresholds	12
Varroa Management.....	15

Chapter 3: Advanced Biology of the Tracheal Mite

Tracheal Mite Biology and Life Cycle	17
Effects of Tracheal Mite Infestation	18
Control of Tracheal Mites	19
Diagnosis of Tracheal Mites.....	20

Chapter 4: Advanced Biology of *Nosema*

<i>Nosema</i> Biology and Life Cycle.....	21
Effects of <i>Nosema</i> Infection	22
<i>Nosema</i> spp. Prevalence and Seasonality in Ontario	23
Control of <i>Nosema</i> Infection	24
The Special Case of Pollination	24
Diagnosis of <i>Nosema</i> Infection	25

Chapter 5: Honey Bee Nutrition and Pest Development

Importance of Pollination to Ontario Beekeeping	27
Honey Bee Nutrition	28
Protein Deficiencies.....	30
Supplemental Feeding.....	32
Integrated Pest Management for Pollination	35

Chapter 6: Biosecurity and Record Keeping

Biosecurity: What is it & Why is it Important?	37
Spread of Pests and Diseases	38
Bee Health Management.....	39
Operations Management	43
Record Keeping.....	45
Biosecurity Plan	46

Chapter 7: Pesticide Exposure

Pesticide Exposure and Impacts	47
Interactions.....	48
Preventing Pesticide Damage.....	49

Chapter 8: Sample Submission

Lab Analysis	51
Sampling for Varroa Mite Analysis	51
Sampling for <i>Nosema</i> and Tracheal Mite Analysis	52
Sampling for American foulbrood (AFB) & European foulbrood (EFB) Analysis	52
Sampling for Pathogens	53
Sampling for Small Hive Beetle Analysis.....	54
Sampling for Queen Health Assessments	55
General Lab Submission Protocol.....	56

Chapter 9: Plan for Success

A Balanced Approach.....	57
Steps for Success.....	57
Developing a Plan	58
What to Keep in Mind.....	58
