

 **CANADIAN  
AGRICULTURAL  
PARTNERSHIP**

*Are you an apiarist planning  
to improve honey bee health  
or to build your business?*

**Cost-sharing funding is available**

More details at [ontariosoilcrop.org](http://ontariosoilcrop.org)

## Cost-sharing funding is available (beginning Sept. 3, 2019) for these projects:

For eligibility requirements and to apply:  
[ontarioprogramguides.net](http://ontarioprogramguides.net)

### Honey bee health management

- Equipment, construction or modifications to a honey house to make it bee tight
- Replacing old brood comb with disease-free comb
- Installing pest control devices
- Facilities for freezing honey bee equipment or processing wax
- Baseline laboratory testing as part of a disease management plan

### Advancing beekeeper business capacity

- Establishing domestically raised disease-resistant colonies
- Implementing a comprehensive marketing plan
- Developing value-added products

### **The Ontario Soil & Crop Improvement Association (OSCIA)**

is delivering this cost-share opportunity under the Canadian Agricultural Partnership.
