

Blue Mountain Inn & Conference Centre ~ 110 Jozo Weider Blvd, Blue Mountains, L9Y 3Z2

*** SEE PAGE 2 for LOAD IN DIRECTIONS ***

LOAD IN DIRECTIONS FOR BLUE MOUNTAIN INN

During green season load in for smaller items can be done on ground level through the back of the Blue Mountain Inn through a set of double doors. Only vehicles can use this route, not trucks, as it's a narrow entrance up a small curb to get to the back of the building.

Load in for larger items can be accessed via our loading dock, which has a dock leveler and can handle full sized trailers. This is via a separate driveway along the side of the building, which loads into our loading dock located on the basement level. Once the items are on our loading dock, they would need to get up to the main floor via our service elevator which measures 7'h x 6'd x 3'9.5"w. Shipments requiring the use of our loading dock must be prearranged.
